### The Process

Based on your estimate, we will block off the maximum number of rooms you might need. To officially reserve your dates and rooms, we require a 10% deposit within seven (7) days of booking your reservation. You will then be put in touch with our on-site wedding coordinator so you can start planning! After you have finalized your RSVPs, we finalize your room block and release any rooms that you don't need.

Your deposit is fully refundable until 90 days prior to arrival, so even though you are actively planning your wedding with your coordinator, you can cancel and receive your deposit back (less a three percent processing fee).

You will need the following information on hand for your call:

- ✦ The dates you will be staying
- ✦ The date of your wedding and reception
- ✦ The approximate number of adults in your party
- ✦ The approximate number of children, age 6-9 and 10-15
- ✦ The number and types of rooms and villas you would like to reserve
- ✦ Your contact information
